

ESSENTIAL SPECIALISED PRODUCTS

Vanilla Butter

Botanical Name: Prunus Amygdalus Dulcis, Helianthus Annuus Seed Oil, Hydrogenated Vegetable Oil, Vanilla Planifolia Oil

Grade: Cosmetic

Appearance: Ivory to pale yellow soft solid butter

Odour: Faint, characteristic

CAS Number: 8007-69-0, 8001-21-6, 68334-28-1 & 8024-06-4/84650-63-5

Vanilla oil is blended with sweet almond oil, sunflower oil and hydrogenated vegetable oil to modify the rheology to create a "butter" which is soft and pliable.

Vanilla Butter is produced using Vanilla Oil and mixing it with the fatty acids and unsaponifiables of a hydrogenated vegetable Oil. The butter is a solid performer when used as a personal care base, its cost effective, easy to use and absorbs extremely well when applied to the skin without making the skin feel greasy. It also carries the sweet aroma of Vanilla, giving your skin or hair that sweet, seductive aroma. Use this in your formulations at a rate of approx. 8-10%. It is popular in face/body creams, lotions, natural soaps & in lip care products. You can use it alone or mix it with other oils, a super moisturiser.

Benefits:

- Excellent Emollient
- Vanilla Aroma
- Rich in Essential Fatty Acids
- Calms & Protects against skin irritation
- Aids in hydrating & repairing mature & damaged skin
- Easy to blend with additional oils

Cosmetic Uses:

- Suitable for a variety of skin care applications:
- Lotions
- Soaps
- Skin creams
- Lip balms

Used to enhance moisture and include the properties of Vanilla in your formulations
